ADVERTISEMENT.

THE advantages resulting from the establishment of Botanick Gardens in the United States, are so numerous that they have received a patronage commensurate with their importance. Those who pursue the study of Botany as a science, or who cultivate it as an interesting amusement, must feel gratified at the increasing value of the collection in the Botanick Garden of South-Carolina. The number of Plants, both exotick and indigenus, is daily augmenting, and already is so numerous as to be sufficient for the purpose of study. At the proper season, seeds, plants, &c. will be distributed among the subscribers, on application to Dr. JOHNSON, the Treasurer,

Persons who subscribe FOUR DOLLARS A YEAR, are entitled to introduce one visitor into the Garden; those who subscribe EIGHT DOLLARS, can admit two; for TWELVE DOLLARS three, and for SIXTEEN DOLLARS four. None can be admitted without a ticket, renewed annually. From the moderate price of subscription it is placed within the means of almost every family to obtain a delightful and innocent recreation.

SUBSCRIPTIONS RECEIVED BY
