A NEW WORLD *Naturalists and Artists in the American South*

18th CONFERENCE ON RESTORING SOUTHERN GARDENS & LANDSCAPES

The early South attracted many curious naturalists who collected, shared, depicted, and described the rich and colorful world of southern plants, birds, animals, and insects. Join us to hear the stories of these early adventurers, botanists, and gardeners and examine how their work informs current understanding of the early southern landscape.

September 22—24, 2011
